WELCOME TO THE SMITHWICK'S SENSORY EXPERIENCE

To make every point of your journey as enjoyable as possible, we have created a map and tips for those who may have sensory issues. On this map, you will find a guide to help you through the tour.

Highlighted on this map are places that we have named 'Sensory Hotspots'. These 'Sensory Hotspot' areas may have certain lights, sounds and smells that could cause sensory issues within individuals. We have broken them down via colour, sensory level and what sense may be affected at each area.

If you do feel overwhelmed in anyway, we encourage you to let a member of staff know and we can bring you to a more sensory friendly area.
